

ETHM-1

TCP/IP COMMUNICATION MODULE FOR INTEGRA CONTROL PANELS

The ETHM-1 module makes available the effective TCP/IP communication channel for SATEL's advanced alarm control panels (INTEGRA, VERSA). It can be used for monitoring via Internet and remote programming of control panels.

FEATURES

- TCP/IP reporting
- **DLOADX** remote system programming
- supported also by the **VERSA** alarm control panels

TECHNICAL SPECIFICATION

Rated supply voltage	12 V DC ±15%
Average current consumption	112 mA
Operating temperature range	0°C...+55°C
Electronics board dimensions	68 x 140 mm
Weight	64 g
